

To all:

Newgrange Group LLC owns a manufacturing facility in Pocahantas, Arkansas. This factory is in the business of making water proof protective footwear and would be adversely affected if the tariffs that are currently in place are reduced. Specifically, S.1823, S.2343, and S.2244 deal with product that is directly competitive with what we are manufacturing.

We protest these MTB' s and are soliciting your support for us.

Thank you,

John E. Callanan
