Part III. Provide the information below in subparts A, B, and C if the bill referenced above is a Limited Tariff Benefit.

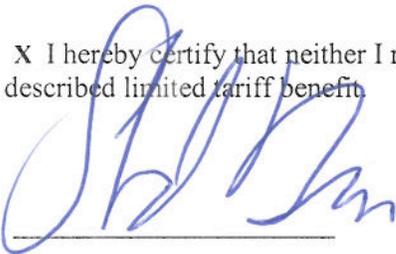

A. Anticipated Beneficiaries:

E.I. du Pont de Nemours and Company

B. Purpose of the Limited Tariff Benefit: Financial Benefit Certification

To extend temporarily the duty on 1,3-bis(4-Aminophenoxy)benzene (RODA), a monomer used to produce polyimide films. DuPont seeks to extend the temporary duty suspension to remain competitive with Chinese and Korean producers of polyimide films, and reduce upward pressure on the cost of manufacturing the final product. Product is not manufactured in the U.S. Domestic production would require significant investment in manufacturing facilities that could meet current quality requirements at competitive costs as well as comply with environmental and health standards. Moreover, product is a specialty chemical used in relatively small volumes. Benefit will seek to secure domestic employees involved in development, manufacture, sale and support of polyimide films and create new opportunities for business growth.

X I hereby certify that neither I nor my immediate family has a financial interest in the above described limited tariff benefit.
