

Scrap the income tax completely and impose a national sales tax. This completely removes individuals from filing a tax return. Also, all monies spent are taxed whether acquired legally or illegally.

If you won't do this, at least rid the income tax system of all the credits and deductions which try to change a taxpayer's behavior. For example, energy credits. Also rid the system of the child tax credit and earned income tax credit. Simplify this mess to the maximum.

I am a practicing CPA, and I am sick of this mess Congress has created.

Dennis M. Doyle, CPA
