Help these two women, captured in a nightmare for having the audacity to leave the USA at five

years of age and thinking they could live happily ever after in Canada, only to be betrayed by both countries!

Does five years of innocence deserve a life of being hounded by Uncle Sam with threats of fines and imprisonment? Should any US person who lives outside of the USA be threatened like these two five years old are?

If you don't think so, please donate at: [Alliance for the Defence of Canadian Sovereignty](#)
