At this time, UNOS Member Quality is requesting no additional information and will not forward this matter to the Membership and Professional Standards Committee (MPSC) for review. Please be aware UNOS could submit this matter to the MPSC should additional information become available in the future.

The transplant community relies on its members' assistance to improve patient safety and the quality of care for transplant recipients. If you have any questions or need any additional information about the policy compliance process, please feel free to contact me at [REDACTED]

Sincerely,
