[REDACTED]

Dear [REDACTED]

The United Network for Organ Sharing (UNOS) operates the Organ Procurement and Transplantation Network (OPTN) under contract with the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services. Under that contract, UNOS staff continuously review reported or identified patient safety and/or public health related concerns.

UNOS Member Quality appreciates your response to the inquiry letter sent to We Are Sharing Hope SC on March 29, 2017. Specifically, this inquiry involved a kidney allocation from donor [REDACTED] that missed two flights.

At this time, UNOS Member Quality is requesting no additional information and will not forward this matter to the MPSC/PCSC for review. Please be aware UNOS could submit this matter to the Membership and Professional Standards Committee (MPSC)/Policy Compliance Subcommittee (PCSC) should additional information become available in the future.

The transplant community relies on its members' assistance to improve patient safety and the quality of care for transplant recipients. If you have any questions or need any additional information about the policy compliance process, please feel free to contact me at [REDACTED]
