

Additional ideas:

Airport

*enable the airport for passenger transports without having to go through customs (for intransit only). This way it can compete with Panama as a Latin American airport hub.

Bring back US Navy to Roosevelt Roads, include research facility that can collaborate with local entities in studies.

***Highlight local economic impact and community development engagement**

Bring back US Navy training center to island of Vieques guaranteeing the use of lead free and uranium free ammunition.

***Highlight local economic impact and community development engagement**

Allocate Federal Funds for the integration of metro train to peripheral cities such as Caguas (shovel ready) and connect to Santurce and Old San Juan. This will have high real estate/development impact and increase the use of the metro train which at this time is highly subsidized and underutilized.

Complete “super tubo” or super aqueduct interconnection project in order to move freely water resources from the west/interior towards the entire metro area distribution system.
