Good Morning,

I would like to add in my two cents for what it's worth.

I believe the time has come to reform our TAX system in a major way.
I would ask that you seriously consider either a FLAT tax; that is applied across the board to everyone, business corporation etc... I believe that this may also be considered a national sales tax in some of the reading that I have done.

The other option I like a lot is the FAIR Tax. From what I have read this is a very simple solution that would greatly simplify the collecting of taxes.

By removing all of the regulations and deductions you would be able to collect tax from all of the population even those that are in the shadows because as they work and live, and they will be spending money in their communities.

Please work hard to reform our current system and make it simpler for all Americans and do not favor anyone we all need to be a part of the solution to real tax reform.
